Clean Earth Announces a New Generic Approvals Program At Clean Earth of North Jersey Facility

Hatboro, PA; July 22, 2011: Clean Earth of North Jersey, a RCRA Part B permitted transfer, storage, and disposal facility, located in Kearny, New Jersey, is providing customers with quick and convenient solutions to dispose of hazardous and non-hazardous drum wastes through a Generic Approvals Program. This program includes over 40 pre-approved generic codes for both hazardous and non-hazardous generic contaminants. A pre-approved contaminants list with corresponding profiles allows our customers to quickly drop off drum waste and get back on the road quickly.

Averil Rance, Clean Earth VP – EH&S states, “This program allows our customers to bring in contaminated materials in a compliant, hassle-free process, and rest assure that it will be handled responsibly by an environmentally conscience firm.”

Generic Approvals Program Benefits:

- Only signed paperwork required (submitted electronically or at time of arrival)
- No pre-approval process – simply complete the pre-approved profiles found under the forms and downloads page.
- No minimum or maximum drum quantities
- No testing charges
- Ability to schedule drop off with only a signed profile
- Convenient North Jersey location – via the New Jersey Turnpike, Exit 15E
- 3 Convenient ways to submit your paperwork:
 1. Submit profile in advance electronically with signature
 2. Submit profile in advance electronically without signature (signed profile brought in with waste)
 3. Submit signed paperwork with waste (no electronic submission)

Clean Earth, Inc. is one of the nation's largest processors of contaminated soil, dredge sediments and other non-hazardous materials. Headquartered in Hatboro, Pa., it operates a network of full-service facilities in the eastern United States that handles more than three million tons of soil annually. Treatment facilities are located in South Kearny, NJ, Carteret, NJ, Jersey City, NJ, Hagerstown, MD, New Castle, DE, Morrisville, Pa and Philadelphia, PA.
